1-Room Package

Rosendahl Design Studio

1 Introduction

Client Objective:

The client, a young professional moving into a new **2.5 room apartment,** sought a full interior design solution that reflected both his lifestyle and cultural heritage.

As a remote worker who frequently hosts friends and family, the space needed to be both highly functional and welcoming. The design aimed to thoughtfully incorporate elements inspired by the client's Scandinavian and Caribbean background—blending clean lines and natural materials with warmth and tropical touches.

To align with the client's personal style, darker tones and masculine textures were introduced to add depth, contrast, and a refined yet grounded atmosphere.

Key Considerations

- Able to accommodate multiple guests
- Office nook within open concept , but still separate and comfortable
- Use of removable wall hooks to avoid drilling
- Living Room budget between CHF 3000-3500
- Organize furniture installation

8 What Our Clients Say

"We had the pleasure of working with Felisha Rosendahl for the interior design and artwork selection for our stem cell clinic in the Bahamas, and we couldn't be more pleased with the results. Her ability to seamlessly blend the clean, modern aesthetics of Scandinavian design with the warmth and vibrancy of Caribbean culture resulted in an environment that feels both professional and welcoming"
